Acknowledgement

We are highly indebted for getting such a tremendous opportunity to prepare the SPL-2 Software Requirements Specification and Analysis (SRS) report on Vehicle Renting and Management System. We would like to thank our supervisor, ***Dr. Mohammed Shafiul Alam Khan***, Assistant Professor, Institute of Information Technology, University of Dhaka, for giving us guidelines about how we can prepare this report. In completing this paper, we have collected various important data and information from various transport agencies and industries. We are thankful to all who helped us to prepare this report.

Abstract

This document initially describes the Software Requirement of automated Industrial Transport Management. It contains functional, non-functional and supporting requirements and establishes a requirements baseline for the development of the system.
